Scandals are now cropping out in the royal families of Europe. It transpires that the Czar of Russia is illegitimate and may be knocked off his throne in consequence, and that Prince George, who married Mary of Teck, amid such pomp and splendor, in London, a few days ago, was married some years ago to another woman by whom he has two children. With the royal families of Russia and England washing their dirty linen, the prospect of an enjoyable Summer for the scandal mongers is very promising.

Terrible Fire in Chicago.

The cupola of a cold storage building in Chicago caught on fire yesterday, and the firemen went to quench the flames. Before they could get back the tower and cupola burned, and thirty men lost their lives. At least sixty firemen were injured and at one time the World's Fair buildings were threatened. The loss was a quarter of a million.

The fire started at the top of the cupola, which rises fully 200 feet from the ground. Through the cupola a chimney passes. The cupola was made of wood, overlaid with a staff highly ornamented with columns and pillars. Near the top is a landing. The fire broke out 30 feet above this. As soon as the firemen arrived 35 or 40 of them climbed up ladders to the landing and were preparing to throw streams of water on the burning portion when the fire, which had eaten away the inside of the staff to a point below where the firemen stood, broke out with volcanic ferocity on all sides. An exclamation of horror broke from the lips of 20,000 people gathered about the building to see the fire.

The were beyond the reach of ladders, and the crowd stood horror stricken and helpless to aid. The flames leaped higher and higher, until the men were almost concealed from view.

Five men saved themselves by sliding down ropes. Before the others could follow the fire burned away the ropes. Those who remained were huddled together on the north side of the cupola.

At this moment one of the firemen sprung far out and was dashed to pieces on the roof sixty feet below. Another and another crazed by the awful heat, followed his example and met the same fate. When five had jumped the upper portion of the cupola gave way and the remaining firemen were swallowed up in the mass of burning timbers. In the meantime every effort was being made to extinguish the fire, most of which was above the reach of the streams.

The entire building will be destroyed. It cost a quarter of a million dollars and was stored with wines, meats and fruits. The loss will be half a million. It was built by the Herculian Iron Works, the manufacturers of refrigerating machinery.

New Summer suits at Joe Platt's.

Male Beauties.

The beauty contest opens with two horses brought to the post. Ed. Walsh and Matt Brannan. They are not very likely horses, but good enough to start a race with.

One is a black nag and the other a chestnut. They have been in training for some time, but have no very fast records yet.

Unless some more entries come in it will be a pretty slow race. Some more skates are expected in tomorrow from Carson Valley.

Since the above was in type there were four more entries, and the race should now prove interesting.

The present citizens in the beauty contest are not all the handsomest men in the city, but they are all hopeful, and probably someone thinks they are handsome. The small showing of one vote each indicates the craze in favor of their beautiful phizes is happily kept within bounds.

In order to give several old men a chance, the 50-year limit in the male beauty contest has been rescinded and extended to 60 years.

BEAUTY CONTEST.

NAME:

Evans Arraigned.

Fresno, Cal., July 10.—Chris Evans was arraigned in Judge Holme's Court this morning for the killing of Wilson and McGinnis at Young's cabin on Sampson Flat.

Evans asked time to get an attorney. He is said to be negotiating with Pet Reddy to defend him. Evans was very weak, and in order to ascend the two flights of stairs to Judge Holme's Court it was necessary to have two assistants. His voice was so weak that when answering the questions asked by the Judge he could not be heard, and the District Attorney, who was near Evans, had to repeat his answers. The case was continued without date.

The New Teachers.
